

Arnold Watkin – a short note since graduating from Northview

We now reside in Boston, Massachusetts, and have lived here since 1970.

After Northview, I did my military training in Pretoria, then graduated from Wits Dental School and married, Marcelle Woolf, shortly thereafter. The next day we left on a one way ticket to London, whereupon I obtained a GP position in North London.

After a year, I was fortunate to get accepted at Boston University Graduate Dental school in Prosthodontics, obtained my masters degree and was given an Assistant Professor position at the Graduate Dental School.

I taught full time until I was able to get my *green card* which took 4 years, and taught part time while establishing my dental practice in downtown Boston. I am still working in the Boston office and 7 years ago acquired a second office about 45 minutes drive west of Boston. I now split my time between the 2 offices which works out very well; having junior partners allows me to do this.

My two children, Heath and Charla, are both married and have given us 4 beautiful grandchildren, ages 3-7 years, which, by choice, occupies a lot of our free time.

We did a family reunion trip to SA and Zimbabwe last summer which was spectacular to say the least. SA has undergone some considerable change!

Wishing everyone the very Best!!
Arnold
